

Interior Fit-out | Kiosk Fabrication & Space planning
Maintenance, Renovations & Refurbishments | Turn key Projects & management

“**We shape environments**

Space Built is a young, progressive fit-out firm that has made its mark creating spaces with significance, influence and soul.

About Us

Since its inception in 2021, Spacebuilt interiors has pioneered in the fit-out industry through an innovation approach in the field of interior design, fit-out, renovations and execution with the contribution of an experienced team.

We are a fast growing Interior fit-out firm with a record of high quality and on-time completion of projects.

Our projects are always executed according to the client's exact specifications. Our team always focusses on sustainable, innovative and breakthrough design solutions that create ideal work environments.

Built with Style. Built with Smile

Our Business Approach

Our hands-on tightly run management style and close supervision by upper management allows us to undertake a project and consistently ensure on time, within budget delivery.

Based on experience, Space Built is able to reduce cost while maintaining quality through a very efficient system of waste reduction that respects the environment, maintains its wellbeing and ensures project budgets are not exceeded.

most of the projects we undertake have a high level of complexity. We

turn challenges into opportunities. Space Built has successfully combined skills and quick problem solving with the quality-oriented ethics of our dedicated workforce and our vast experience in the region.

This formula has earned us an undeniable reputation for delivering solutions that continuously exceed customer's expectations. The success of this policy has encouraged many of our clients to work with us more than once, assigning us repeat contracts.
